

Auto Downloader

For GreenData Manager Software

An Automated and Secure System to Deliver PartData to GreenData Manager Users

The Auto Downloader option for GreenSoft Technology's award-winning GreenData Manager (GDM) Software provides an automated, secure way for GDM users to automatically receive PartData files directly from GreenSoft's servers. This option eliminates the need to manually download and import PartData files delivered by GreenSoft after collection and validation.

Saving Time Is Saving Money

- Regular manual downloads and imports by GDM users to keep data current are no longer needed.
- Maintain up-to-date status on all parts, materials, and products automatically.
- Includes import of all substance, lifecycle, compliance, and conflict minerals data, as well as all documents.
- Activity log provides a detailed record of all parts and files downloaded and imported.

PartData Sync Statistics			CMDData Sync Statistics		
Description	GreenSoft Stats	Your Stats	Description	GreenSoft Stats	Your Stats
Number of Part Numbers in IM	62	62	Manufacturers with Active CMRTs	8	8
Number of Manufacturers in IM	31	31	Declaration Scope as 'Company'	11	11
MCD Type as 'Full Disclosure'	53	53	Declaration Scope as 'Product (or List of Pr...'	3	3
MCD Type as 'REACH SVHC'	1	1	Declaration Scope as 'User defined'	4	4
Lifecycle Status as 'Active'	58	58	Collection Status as 'Delivered'	18	18
Lifecycle Status as 'Obsolete'	4	4	Collection Status as 'Pending at GreenSoft/...'	37	37
EU RoHS Status as 'Passed'	44	44	Collection Status as 'Escalated'	7	7
EU RoHS Status as 'Passed with Exemption'	13	13	Collection Status as 'Unknown'	0	0
EU RoHS Status as 'Failed'	0	0			

Always Know You're Up to Date

When you activate the Auto Downloader, you'll get access to powerful tools and information. A quick statistics check shows exactly how your local database aligns with the latest data on GreenSoft servers.

Exception Status	File Count
Queued	0
Download Error	0
Import Error	0

If you'd like to know more about any of GreenSoft's Data Management and Conflict Minerals offerings, including RoHS-2, REACH SVHC, CMRT data collection, and smelters or refiners validation and verification, or GreenSoft's award-winning GreenData Manager software, please contact us for more information and a demonstration.

GreenSoft Technology: A Trusted Partner

GreenSoft has 12+ years of experience in managing compliance data and has a broad range of expertise in active and passive components, electrical and mechanical parts, packing and printing materials, and raw materials including organic or non-organic chemicals. GreenSoft has relationships with over 17,000 suppliers worldwide and is ISO 9001:2008 certified.
