GreenSoft
Technology, Inc.

Compliance is a moving target.
We make it easy.

Data Management Services

Data Collection, Validation and Conversion for
RoHS-2, REACH, Conflict Minerals and Other Regulations

Compliance Due Diligence Starts With High-Quality Data

If you're a manufacturer that needs to comply with global environmental regulations such as **EU RoHS-2**, **REACH SVHC**, **Conflict Minerals**, **CA Prop 65**, **EU MDR** or others, GreenSoft is here to help. We will collect and validate compliance data on parts and assemblies from your supply chain for you so that you can focus on your core competencies.

➤ We provide **100% parts coverage** for your Bill of Materials (BOM) through a process of data collection, replacement part sourcing and material analysis.

➤ We **validate your data** for completeness and accuracy using our **stringent quality system** that combines **automated checks and manual review** to ensure **data quality of 99.9%**.

➤ We reduce data collection time by using our extensive **GreenSoft Component Database** containing continually updated parts data.

➤ For parts that are not in our database, our **Data Collection Team** will personally contact each of your suppliers as many times as it takes to obtain the requested data.

➤ For suppliers that fail to provide the necessary data, we will **assess component compliance** through analyzing material descriptions on drawing files, or recommending replacement suppliers, or Lab Testing for last resort.

➤ We deliver compliance data to you in multiple formats including **Excel**, **IPC-1752**, **IPC-1752A** and **IEC 62474**.

GREENSOFT'S DATA MANAGEMENT PROCESS

Customized Parts

When Suppliers Fail to Respond

Suppliers failing to provide data is a matter of "when," not "if." When it happens, we can still help!

- BOM Scrub/Parts Cleanse
- GreenSoft Component Database
- Data Collection from Supply Chain
- Data Validation
- Data Conversion

Unmatched Parts

Matched Parts

- Compliance Assessment
- Replacement Suppliers
- Lab Testing
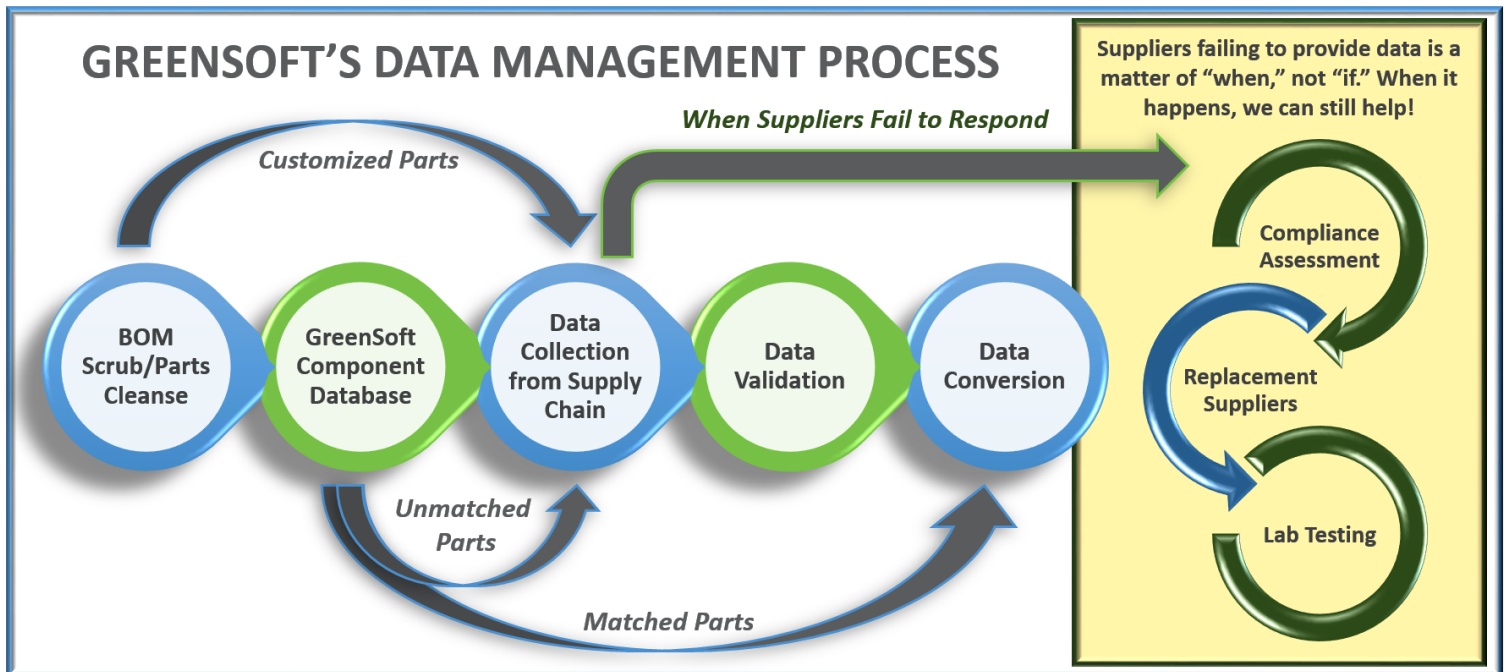

A Custom Package For All Your Needs

We have flexible offerings that can be **customized to fit your specific needs**. An example of our **Standard Data Package** includes:

- ✓ **BOM Scrubbing/Parts Cleansing** (correct manufacturer names, part numbers, descriptions)
- ✓ **EU RoHS-2 and EU REACH Compliance** (status, replacement parts, CoC, CE marking)
- ✓ **Lifecycle Information** (NPI, Active, NRND, EOL, Obsolete)
- ✓ **Full Material Declaration** data when available
- ✓ Data quality of **99.9% accuracy**
- ✓ Delivery of reports in **Excel**, **IPC-1752**, **IPC-1752A**, and **IEC 62474**

Plus, we also can provide the following services among many others:

- ✓ **Conflict Minerals** CMRT collection services
- ✓ Assess the compliance status of **mechanical parts** based on drawings or material descriptions
- ✓ **Lead-free** manufacturing data, or tin whisker mitigation parameters per iNEMI specifications
- ✓ Compliance documents for **PFOS/CA Prop65/Halogen-free/Ozone Depletion** and others

Plus, we offer **EU REACH article classification** and the processing of articles to meet the new definition of an "article" under the EU REACH regulation.

The GreenSoft Difference

GreenSoft has been helping manufacturers around the globe manage their compliance data for over 14 years by providing **Data Services** and the award-winning **GreenData Manager®** software. We have a broad range of expertise in active and passive components, electrical and mechanical parts, packing and printing materials, and raw materials including gas and chemicals. GreenSoft is ISO 9001:2015 certified.
