

Conflict Minerals Module

For GreenData Manager Software

Conflict Minerals Rule Requires Detailed Annual Reporting

Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act requires companies reporting to the Securities and Exchange Commission (SEC) to declare the origin of Conflict Minerals (tin, tantalum, tungsten and gold) in their products. Even if your company is not publicly-traded, you will likely get requests from your customers to comply.

Conflict Minerals Module for GDM Manages CMRTs

Users of GreenSoft's data services and GreenData Manager software can manage Conflict Minerals data easily and efficiently.

- Import Conflict Minerals Reporting Templates (CMRTs), or let GreenSoft collect and validate CMRTs for you.
- Create high-level completion summaries at the company level or products (BOMs) level.
- Aggregate CMRT forms collected from suppliers to create company level or product level CMRT forms.
- Generate a Smelter Analysis Report to show high risk smelters or smelters from US Sanctioned countries.

Award-Winning GreenData Manager (GDM) Software

The Conflict Minerals Module is an add-on module to GDM software. GDM software is a powerful tool to help you manage compliance data and reporting. Designed just for environmental compliance, GDM software features:

- Central storage location for all your component and BOM substance data and documents, compliance reports and regulation requirements
- Sorting, filtering, and reporting abilities at the BOM-level, product-level, and company-level
- Secure protection of your BOM-level data
- Parameters for over 24 regulations built-into the software, or write your own custom rules
- Updates to regulation parameters when regulations change
- Easy integration into your existing workflow with PLM or ERP system

Powerful Conflict Minerals Management Tools

When you install the Module, you'll get access to powerful tools. The Manufacturer Status page (right) provides an overview of the number of parts and CMRTs for each supplier that have been collected.

Manufacturer Name	Manufacturer Code	# of Parts	# of Active CMRTs	Declaration Type	Ta from DRC
AVX	AVX	3	1	Company	Yes

Metal	Smelter Name	Smelter ID	Country	CFS Status	CFS Comment	CFS Expiration...	Earliest CMRT Dec...
Gold	Aida Chemical Industries Co. Ltd.	CID000019	JAPAN	Not CFS Listed			07 Jan 2014
Gold	Allgemeine Gold-und Silberscheid...	CID000035	GERMANY	CFS Listed		13 Aug 2016	07 Jan 2014
Gold	Almatyk Mining and Metallurgical...	CID000041	UZBEKISTAN	CFS Listed	LBMA Responsi...		07 Jan 2014

The Smelter Analysis page (above) allows you to view the status of each smelter and its associated metal classification, Smelter ID, country, CFS status, and supplier name – for all your suppliers or on per BOM(s) basis.

GreenSoft Technology: A Trusted Partner

GreenSoft Technology, Inc. is a leading provider of environmental compliance data management services and software for the global electronics industry. For over 15 years we've been helping manufacturers around the globe manage their compliance data for chemical regulations and directives.

GreenSoft has a broad range of expertise in active and passive components, electrical and mechanical parts, packing and printing materials, and raw materials including gas and chemicals. GreenSoft has relationships with over 37,000 suppliers worldwide and is ISO 9001:2015 certified.
