

TURNKEY SERVICE

All-in-One Compliance Solution for
EU RoHS, EU REACH, Conflict Minerals and Other Regulations

A Full-Service Solution Featuring High-Quality Data and Expertise

GreenSoft Technology's signature **Turnkey Service** is an **all-in-one solution** for compliance with global environmental regulations such as:

- **EU RoHS**
- **EU REACH**
- **Conflict Minerals**
- **California Proposition 65**
- **EU Medical Devices Regulation (MDR)**
- **U.S. Toxic Substances Control Act (TSCA)**
- **SCIP Database**
- **PFAS "Forever Chemicals"**
- **And other regulations or custom requests**

Just send us your Bill of Materials (BOM) or parts list, and we'll collect data and documents for all your parts to create a **personalized Component Database** for your company.

We validate the data for accuracy using our **stringent quality system** that combines automated checks and manual review to ensure **data quality of 99.9%**.

Our process guarantees **100% data coverage** through a combination of data collection, replacement part sourcing, and material analysis.

The collected data is used to generate **compliance reports** for your company to demonstrate compliance at the company-level, product family-level, or product-level.

Your **dedicated Project Manager** oversees your project status and provides bi-weekly updates.

Reports and documents are delivered through an **online project status report or dashboard** for easy viewing and sharing.

Get Started Today With a **FREE BOM Scrub/Risk Analysis!**

GreenSoft Technology's **Turnkey Service** is the **fastest** and most **efficient** way to show compliance for dozens of regulations and directives. Contact us to learn more, and we'll provide you with a **FREE BOM Scrub/Risk Analysis!**

TURNKEY SERVICE

How it Works

Just send us your Bill of Materials (BOM) or parts list, and let us know which regulations or customer requirements that you need to comply with. GreenSoft Technology will take it from there, and will provide you with the **deliverables bi-weekly** in an **online project status report or dashboard**. Example reports and screenshots are below.

Sample Bi-Weekly Project Status Report

Every other week your **dedicated Project Manager** will send you a **Project Status Report** with a summary of the collection status and compliance status of your in-scope BOMs. This allows you to assess your risk and start planning for replacement parts well in advance, if needed.

Sample BOM Grand Report

Final project delivery includes a **BOM Grand Report** for every in-scope BOM, with a final breakdown of the compliance status of each part in the BOM. The **Grand Report** includes supporting documents for the parts data, which are saved in a compressed folder and neatly hyperlinked in the **Grand Report**.

Online Project Status Report Deliverables

Your **dedicated Project Manager** will send you **bi-weekly online project status reports** and other deliverables, including:

- **Scrub Report** for every BOM in project scope (with risk estimate on suppliers)
- **Compliance data** in Excel format (included in every bi-weekly Project Status Report)
- **Compliance documents** in PDF format (included in final delivery)
- **Parts list** with status and hyperlinks to supporting documents (included in final delivery)
- **19-Category Recommended Suppliers List** (delivered monthly)
- **BOM-level compliance reports** in Excel for each regulation in project scope (included in final delivery)

On-Going Maintenance and Changes to BOMs

Once your initial project is complete, we also offer **on-going maintenance packages** to ensure your data is kept fresh and is always up-to-date. If you make changes or updates to your BOMs, we will update your **personalized Component Database** and generate a new set of reports for you. Just let your **dedicated Project Manager** know of the changes, and we'll take care of the rest.

The GreenSoft Technology Difference
