

ELECTRONIC COMPONENT MATERIAL ASSESSMENT (eCMA) FORMS

Plus FMD Processing and CMRT Collection
for Suppliers to Boston Scientific

Solution for Suppliers to Boston Scientific

GreenSoft Technology has a solution for suppliers who must submit documentation on material composition and regulation compliance to **Boston Scientific**. We provide data collection, validation and reporting services for regulations such as **EU RoHS**, **EU REACH**, the **EU Medical Devices Regulation (EU MDR)**, **Conflict Minerals**, and others.

As part of our Data Services, we can generate both component-level and product-level **Full Material Declaration (FMD)** data, and transfer that product disclosure data into **eCMA format** for submission to the **BSC Corporate Supplier Portal**. We can also generate **Conflict Mineral Reporting Template (CMRT)** forms for conflict minerals submissions.

Boston Scientific is one of the largest medical device manufacturers in the world. The company expects its suppliers to provide complete and accurate data for their parts. **GreenSoft Technology** takes care of collecting and preparing this data for you so that you can focus on producing and selling your products.

Full Material Declaration (FMD) Processing

Boston Scientific expects its suppliers to provide disclosure on 100% of the material composition for all supplier parts and components. As part of our **Data Services**, we can generate **FMD data** on your parts at both the component-level and the product-level. Plus, we can convert that data into **eCMA format** for submission to **Boston Scientific**.

Establishing an **FMD database** is not only required by **Boston Scientific**, but it is also the best practice to reduce your burden of providing updated compliance declarations to customers when regulations are changed. Instead of providing individual compliance declarations for each package or component, give your customers **FMD data** and **eliminate the need to re-issue compliance declarations** every time a regulation is updated.

GreenSoft's Data Services provide coverage for:

- Electronic Component Material Assessment (eCMA) forms
- Full Material Declaration (FMD) data
- Conflict Minerals Reporting Templates (CMRT)

DATA SERVICES FOR BOSTON SCIENTIFIC SUPPLIERS

Conflict Minerals Reporting Templates (CMRT)

In addition to **FMD data** and **eCMA forms**, **Boston Scientific** also requires its suppliers to provide **Conflict Minerals** data through the **BSC Corporate Supplier Portal**. **GreenSoft Technology** provides full **Conflict Minerals** data coverage as part of our **Conflict Minerals Data Services**.

Just send us a parts list and we'll collect and validate the **CMRT forms** provided by your suppliers, aggregate the information, and generate a CMRT at the company-level or BOM-level per your requirements.

Our **Conflict Minerals Data Services** provide:

- **High quality supply chain data** through our 100+ Point Data Validation System.
- **Rigorous follow-up with suppliers** during Reasonable Country of Origin Inquiry (RCOI).
- **Dedicated teams to monitor changes** to legislation and smelter lists.
- **A dedicated Project Manager** assigned to your project to provide bi-weekly/monthly status updates so you can be sure your project stays on track.

Streamline Your Product Compliance Program with GreenSoft Technology

Let **GreenSoft Technology** simplify your compliance management and data submissions to **Boston Scientific**. With our data collection, data validation, and data formatting/reporting solution, you can submit **eCMA forms**, **FMD data**, and **CMRT forms** to the **BSC Corporate Supplier Portal** with ease. **GreenSoft Technology** takes care of the legwork so that you can focus on your core business. **Contact us today to learn more and receive a demo.**
