## GreenData Manager®

### Component Database Search

### Instant Compliance Status for Millions of Parts

Allow your engineering and product design team to qualify parts for compliance instantly with **iGDM Component Database Search** software module.

With **iGDM**, customers can access GreenSoft's **multi-million parts database** from anywhere via the Internet through **GreenData Manager (GDM) Browser Edition (GDM-BE)** or **Hosted GDM** software platforms.

Instantly see the **up-to-date EU RoHS** and **EU REACH Substances of Very High Concern (SVHC)** compliance status for millions of parts. The **iGDM** database is populated by high quality data that has been collected and verified by GreenSoft's data collection team.

Give your engineering and product design team the freedom to **make decisions in real-time** while complying with your company's environmental health and safety standards with **iGDM Component Database Search** software.

Searched Part Number	Manufacturer Part Number	Manufacturer Name	Part Count	Description	EU RoHS 2 Status	Exemption Index	SVHC List	SVHC Status	FMD Status	Category	Lifecycle

# iGDM Component Database Search for GreenData Manager (GDM) Software

## Efficient Part Number Matching and Compliance Tracking with iGDM

iGDM enables you to search for matches using a single part number or multiple part numbers at once. iGDM will return search results presenting the number of parts matched or unmatched from your company's own parts database. You can then view the compliance status of unmatched parts using data pulled from **GreenSoft's iGDM component database**. Parts can be added to the data collection and processing pool for GreenSoft to input the compliance status and compliance documents into the GDM software for you.

**Parts Lookup Drilldown**

Note: Parts filtered based on the following search conditions: MPN [begins with TFCR0603-10W-C]. MFG [equals VENKEL].
